

Drafter, Calgary, AB

Our Company

Global Power Technologies (GPT) is the world's leading manufacturer and distributor of Thermoelectric Generators (TEGs) and a leading supplier of Remote Power Systems. The Company's products are used extensively in the oil and gas industry as well as for telecommunications, security and surveillance and military applications. With sales into 50 countries, GPT has been providing reliable solutions for critical remote power applications around the world since 1975.

We are looking for an experienced Drafter to join our Calgary team. You will be a part of a positive, respectful environment where we take genuine pride in all that we do and are passionate about ensuring the success of our customers and our employees.

Job Purpose

Reporting to the Project Manager and working closely with the Engineering team, the Drafter will be responsible for the preparation of mechanical drawings using Solidworks and AutoCAD. We are seeking an organized, detail-orientated person that will ensure that design drawings conform to the specifications provided.

Job Duties

- Generate submission and production packages that are complete and accurate using Solidworks or AutoCAD
- Complete documentation packages and produce drawings sets based on current project and team needs
- Update and modify drawings to reflect the final product
- Check and verify design drawings to conform to specifications and design data
- Adhere and promote established Standard Operating Procedures (SOP's) and Standards that are related to the Engineering Department and be willing to offer suggestions for improvement
- Properly use the company's electronic filing system and filing internal and external documents
- Communicate closely with all members of the Engineering team to identify individual responsibilities and project goals
- Participate in the drafting meetings for project review regarding timelines and drafting issues
- Participate in process improvement initiatives and contribute to continuous improvement of the engineering and manufacturing process
- Communicate effectively with internal and external stakeholders and be committed to a team approach and outcomes

Qualifications

- Post-secondary education in design or engineering related field required
- Demonstrated experience working with Solidworks
- 2+ years of relevant drafting experience in a manufacturing environment
- Computer knowledge in MS Office Suite
- High attention to detail
- Ability to work in a team environment
- Well-developed communication skills, both verbal and written
- Able to work efficiently and effectively when managing multiple tasks
- Being able to self-start and self-motivate when there is no one available to provide instruction

- Effective problem-solving skills
- Willingness to learn and understand new technology

What We Offer

At GPT we care about the personal job satisfaction of our employees. We recognize the wide variety of factors that contribute to this satisfaction and encourage work life balance. Along with competitive compensation and benefits packages, we offer a respectful work environment, one which provides our employees with valuable learning experiences and career growth opportunities.

To Apply

Please submit your resume and cover letter to HR@globalte.com quoting the job title in the subject line and tell us why you are the best candidate for the job. We thank all applicants for their interest, however due to the volume of anticipated applications, we will be responding only to those candidates who are contacted for an interview.
